MODELS AND GROUPS, İSTANBUL 4

Workshop on Model Theory and Groups

26-28 March 2015

Speakers :

Ferihe Atalan (Atılım Üniversitesi, Ankara) *Curve Complex, Mapping Class Group of a Nonorientable Surface and their Automorphisms*

Vincent Guirardel (Université de Rennes 1) *TBA*

Alexander Iwanow (Uniwersytet Wrocławski) *Metric groups in continuous logic*

Zlil Sela (Hebrew University) *Envelopes of definable sets and some of their applications*

Rizos Sklinos (Université Lyon-1) *Fields definable in the first order theory of the free group*

Özgün Ünlü (Bilkent Üniversitesi, Ankara) *Free group actions on highly connected manifolds*

Martin Ziegler (Albert-Ludwigs-Universität Freiburg) *Model theory of right-angled buildings (Joint work with A. Baudisch and A. Martin-Pizarro)*

Tutorials :

Mustafa Gökhan Benli (Orta Doğu Teknik Üniversitesi, Ankara) *Space of finitely generated groups*

Julien Melleray (Université Lyon-1) *Automorphism groups of metric structures*

Contributed Speakers :

David Bradley-Williams (University of Central Lancashire, Preston) *TBA*

Tomas Ibarlucía (Université Lyon-1) *TBA*

Place : IMBM Seminar Room, Boğaziçi University South Campus
