

WORKSHOP ON LIE GROUPS, ALGEBRAS, AND THEIR REPRESENTATIONS

Lie theory has vast application in every part of mathematics. “Workshop on Lie groups, algebras, and their representations” will be mainly a concentrated mini-course by Mahir Bilen Can, starting from the beginning of Lie theory and ending with some modern Geometric Topological applications. The workshop will be complemented by additional Lie theory related research talks (to be announced) scattered throughout the 3-weeks.

Organizing and scientific committee:

- Selman Akbulut (Michigan State University)
- Mahir Bilen Can (Tulane University)
- Ferit Öztürk (Boğaziçi University)
- Fulya Taştan (Boğaziçi University)

Date : May 9-28 2016

Place : IMBM Seminar Room, Boğaziçi University South Campus
