

I M B M istanbul matematiksel bilimler merkezi
istanbul center for mathematical sciences
Feza Gürsey Center for Physics and Mathematics

SUMMER SCHOOL
ON
EFFECTIVE GEOMETRY
AND
ARITHMETIC OF CURVES

Nurdagül Anbar - RICAM, Linz

Algebraic function fields and applications to cryptography and coding theory

Anne Frühbis-Krüger - Leibniz Universität Hannover

Algorithmic Aspects of Desingularization of 2-dimensional schemes

Christophe Ritzenthaler - University Rennes 1

Models of curves of low genus and number of points over finite fields

Date : 4-8 June 2018

Time : 09:30-18:30

Place : IMBM Seminar Room, Bogazici University South Campus
