

istanbul matematiksel bilimler merkezi
istanbul center for mathematical sciences

THE 2nd TWM SUMMER SCHOOL

26-31 August 2013

Main Lectures :

Burak Özbağcı (Koç University) *Introduction to Symplectic and Contact Topology in Low-Dimensions*

Ferit Öztürk (Boğaziçi University) *Around Real Analytic Gradient Systems*

Mustafa Kalafat (Tunceli University) *Algebraic Surfaces and Their Applications to Differential Geometry 1 & 2*

Ali Özgür Kişisel (METU, Northern Cyprus) *Quantum Groups and Links*

Barış Coşkunüzer (Koç University) *An Introduction to Minimal Surfaces*

Colloquium & Panel :

Betül Tanbay (Boğaziçi University)

Research Seminars :

Ayşe Borat (University of Aberdeen) *Remarks on Symplectically Aspherical Manifolds*

Münevver Çelik (METU, Northern Cyprus) *A New Approach to The Quantum Group $SL_{q(n)}$*

Aybike Özer (ITU) *Dualities in String Theory*

Ayşegül Özgüner Akyol (Bilkent University) *Simple Singular Plane Sextics*

Arzu Zabun (METU) *Anti-Canonical Correspondence Between Configuration of 6 (or 7) Points and Real Non-Singular Del Pezzo Surface of Degree 3 (or 2)*

Place : IMBM Seminar Room, Boğaziçi University South Campus
